VERSE

Till the river's run dry
Till the sun the leaves the sky
Till time wastes away
I will love you still
With this vow that we take
And this love that we make
With every beat of my heart
I will love you still

Let the hills in this hollow
Surround us
With a force that no time can take away
I will hold in my heart
The love of a lifetime always

ooh ooh
I will love you still
oooh ooh
I will love you still
ooh ooh

VERSE

Let the hills in this hollow
Surround us
With a force that no time can take away
I will hold in my heart
The love of a lifetime always

I will love you still
I will love you still
