Milk & Honey

Goapele

If we had a place to go if we had somewhere to be can somebody let it go here's your chance so let it be i dont wanna spell it out its between the lines just read how the story ends you'll find rock me to sleepit'll be like milk and honey baby i can tell you want me ooh i can feel your heartbeat and the feelings coming over me just lay back, relax, let me blow your mind lets take our time like honey it feels so warm insideno matter the day your losing the night no matter the hour im telling you now just follow my lead i'll open like a flower honey by the nectur sweet from the ocean so deep on the shores i'll hope we'll meet and fit together perfect...just like milk and honey baby i can tell you want me ooh i can hear your heartbeat and the feelings coming over me just lay back, relax, boy you blow my mind lets take our time like honey it feels so warm insidei dont want the feeling to leave i'm killin em softly never had honey so sweet now that you got me just pull me closer in ooh slowly you give me all i needjust like milk and honey baby i can tell you want me ooh i can feel your heartbeat and the feelings coming over me just lay back, relax, boy you blow my mind

lets take our time like honey it feels so warm insidejust lay back, relax, let me blow your mind like honey it feels so warm inside... ohh lets take our time
