# Satellite

## Colin James

She's as free as a blue horizon
Im a slave to this gravity
And every night i hope and pray that she'll come back down to meI keep my eyes on the stars
I track the heavens above my lonely world
im tracking her trajectory
shes my baby, shes my little satellitewe met at the lunar hilton
on a sea of tranquility
and maybe i was dreamin
but we was shacked up at the honeymoon suiteshe was a wonderful girl
it was a heavenly night
but the stars were wrong
i woke up she was gone
like a memory just out of site
shes my little satallite
