Advisory - the following lyrics contain explicit language:

Chemical warfare  
Frantic minds are terrified, life lies in a grave  
Silent death rides high above on the wings of revelation  
Multi death from chemicals, arrogance has won  
Annihilation must be swift, destroy without destruction  
Gods on the throne must be watching from hell awaiting  
the mass genocide  
Soldiers defeated until by yourself, bodies lie dormant no life  
Rising new souls on the lands where they fell, demons not ready to die  
Nothing to see where the sleeping souls lie, chemical warfare  
Artificial fucking peace, line up in a death row  
Generals in their slow defeat, diminished from this hell  
Banished from the dying world the lords of hell await  
Dogs of war are helpless prey to immortality  
Gods on the throne must be watching from hell awaiting the mass  
genocide  
Soldiers defeated until by yourself, bodies lie dormant no life  
Rising new souls on the lands where they fell, demons not ready to die  
Nothing to see where the sleeping souls lie, chemical warfare  
Fuck it up  
Liquidate, the torture kills the troops that  
try to fight  
Terminate, [Incomprehensible] doom  
Mist falls, the deadly gas that brings them to their knees  
Sacrifice, oh send the soul and send his corpse to hell  
Mummified regions lying in dust, fall victim to this game  
Petri-fied corpses bathing in rust, taken without being blamed  
Falsified spirits farther they fall, soon they will join us in hell  
See the sky burning the gates are ablaze, Satan awaits eager to merge  
Gods on the throne must be watching from  
hell awaiting the mass genocide  
Soldiers defeated until by yourself, bodies lie dormant no life  
Rising new souls on the lands where they fell, demons not ready to die  
Nothing to see where the sleeping souls lie, chemical warfare, warfare
