El Rollito

I just got a feeling
There is something inside of me
I know you see it
But it's only in your fantasyI got a feeling
There is water inside my brain
I kinda love you
But only with my wayYou gotta love me till the end of the road
You gotta feel me gotta hold me
But nothing can save my soulI have a feeling
That I was on a crazy dream
You looked so pretty
But you couldn't just set me freeYou know you love me
And I know that I love you too
I'm feeling nothing
And nothing's the same with youYou gotta love me till the end of the road
You gotta feel me gotta hold me
But nothing can save my soul
