

# He Left Me Love

[Dolly Parton](#)

(Porter Wagoner)He left me love enough to last a lifetime

A lifetime filled with loving memories

And so I have no reason to search for new love

Time could never take his love from me

And my mind is filled with memories, sweet and tender

My heart is filled with love he left for me

And each thought of him just makes love grow sweeter

He left me love to last eternallyI just close my eyes and I still see him

And in dreams, he loves me just like he used to do

He even wakes me with a tender kiss every mornin'

A kiss that lingers on my lips the whole day throughAnd my mind is filled with memories, sweet and tender

And my heart is filled with love he left for me

And each thought of him just makes love grow sweeter

He left me love to last eternally

Oh, yes, he left me love
