

# Touching Heaven

[Johnnyswim](#)

All I see are angels  
All these streets are gold  
That lead to you  
If touching love is touching God  
No wonder I'm in heaven, when I'm holding you  
Simple as a song, a melody repeating in this heart  
I don't know when the chorus came  
Where I heard it first, or when it started I won't be holding my breath for chariots  
I'm not just waiting for skies to part  
You've been my glimpse of Kingdom right from the start  
And you got me touching heaven, ooo  
Got me touching heaven, ooo So tell me what you're dreaming, tell me what it is  
Your dream come true  
I don't need a map to find a hidden treasure  
There, ain't no hiding you I won't be holding my breath for chariots  
I'm not just waiting for skies to part  
You've been my glimpse of Kingdom right from the start  
And you got me touching heaven, ooo  
Got me touching heaven, ooo  
Got me touching heaven You're my hallelujah  
You're my hallelujah  
Yes you are  
You're my hallelujah  
You're my hallelujah  
Yes you are  
Hallelujah  
You're my hallelujah  
You're my hallelujah  
Yeah  
And you got me touching heaven, ooo  
You're my hallelujah, ooo  
You got me  
You're my hallelujah  
You're my hallelujah  
Yes you are  
Hallelujah, hallelujah If touching love is touching God  
No wonder I'm in heaven when I'm holding you You're my hallelujah  
You're my hallelujah  
You're my hallelujah

You're my hallelujah  
You're my hallelujah  
You're my hallelujah  
You're my hallelujah  
Yes you are And you got me touching heaven
