Mindtrip

Soul Cages

You're about to take a mind trip
Get your ticket stamped, pack your thoughts on up
And set yourself to rant and rave
I'll pave the way and clear a path for the aftermath
That's gonna happen when these verses hit
Your bony ass bon voyage I'll check you later
Now check your reason, was it all for pleasin'?
Or was it all misleadin' or do you need a guide?
Brother check your side, gonna take you on a joyride
Trip inside your mind
Trip inside your mind
Trip inside your mind
Gonna trip inside your mind
Feels good and separate yourself
It feels real good I thinkin'
Kicked in another twelve hours I'll be back again
And the vitamin C is makin' me see
The visual dreams of all the colors and schemes
The visual dreams, the light from the moon
Screams shutterin', laughin' to breathe me
Separate yourself gonna take you on a mind trip
Gonna take you on a mind trip
I'm gonna take you on a
I'm gonna take you on a
I'm gonna take you on a
Separate yourself
Separate yourself
Never endin' story is endin' finally
And the scheme of things, the ways of life
You step into the pit of the heart the mind
Body and soul, it's different roles
You'll soon be playin' them alone, jester jokes told again
Then you say, "We're friends", well I'm laughin' and coughin'
Set me off and check the character of this cartoon
Delusions you are seein' are comin' real, real soon
Trip again
You're my only friend I wanna trip I wanna trip again
Trip again
You're my only friend I wanna trip I wanna trip again

I wanna trip again, I wanna trip again, I wanna trip again
Trip again, trip again, trip again
Trip again, trip again, trip again, trip again, trip again, trip again
Trip again, trip again, trip again, trip again, trip again, trip again
Separate yourself
Separate yourself
Gonna take you on a mind trip
I'm gonna take you on a mind trip
Separate yourself
Separate yourself
Separate yourself
Separate yourself
Separate yourself
Separate yourself
Separate yourself
Mind trip
Look inside, you're gonna find me there
Look in for your simple pleasure
