Free Bird (feat. Jayn)

Expus

Hide away hide away where they canâ€™t see
You and me, worry free, sitting front seat
Something new in the view of the country
Free bird

Wonder why you and I made it so far
Fake goodbyes perfect lies in the boxcar
Still we cry still we fly over all trees
Free bird

I forgot why we care
I forgot why weâ€™re here
Free bird

Show me how show me how to be a free bird
Let me see let me see the visions not blurred
Let me hear let me hear it all word for word
Show me how show me how

To be a free bird

Phase 1: Restart and it isnâ€™t long till our romance sparks
Phase 2: Weâ€™re through and Iâ€™m finished wasting my time on you

Hide away hide away where you canâ€™t see
Stealing love far from you in the front seat
Something new in the view of the country
Free bird

You showed me how showed how to be a free bird
You let me see let me see the visions not blurred
You let me hear let me hear beyond your false words
Now that I know how

To be a free bird

You let me see let me see the visions not blurred
You let me hear let me hear beyond your false words
Now that I know how

To be a free bird
