

Just the Wine

Heart

Once in a life
We lived in a sanctuary
A song could get us free
Slept behind the altar
Only the singer saw Now it is gone, years on
Times we took alone
Stealing an hour, buying a night
It's hard on the telephone
Love outside the law
Jai tant reve do toi Is it gone, this year
Is the song still in your ear
Were we only high
Just the wine
Only the times When we're old
How will the story be told
Windswept smoke used by time
Waiting for the bus
Will that be us?
