Protected

Tim Finn

Do you spend your life hiding in the shadows
Terrified of letting down your guard
Do you fantasize of glorious tomorrows
Come alive, youre perfect as you areCareless lies will hurt you no moreTil the angels cry and the music dies
You and I will be protected
Til this earth burns out and stops turning round
I will keep you protected, were protectedWalk away from those who bring you sorrow
Take a chance, I know you still believe
Letting go of everything you cant control
Open up the life you long to leadPrecious heart unlock the doorTil the angels cry and the music dies
You and I will be protected
Til this earth burns out and stops turning round
I will keep you protectedEvery moment youre reflected
By a light so divine
From the darkness were protected
With the truth in our hearts we can shineTil the angels cry and the music dies
You and I will be protected
Til this earth burns out and stops turning round
I will keep you protectedTil the angels cry and the music dies
You and I will be protected
Til this earth burns out and stops turning round
I will keep you protected, were protected, were protected
In this life we're protected
