

# Too Soon to Know (Re-Recorded In Stereo)

[Don Gibson](#)

It's too soon to know if I can forget her  
My heart's been broken in too many pieces  
And it's too soon to know Time passes slow, will I ever know  
If I can forget her and not let it show?  
It's too soon to know News travels fast when love affair ends  
People keep asking what happened to them But it's too soon to know if I can forget her  
My heart's been broken in too many pieces  
And it's too soon to know
