We Curse You All

Nasum

Here's one for all the scum
The objects of our furious rage
The ones that we can live without
Those who drive us fucking insaneThe Nazi scum, we curse you all
The sexist pigs, we curse you all
The upper class, we curse you all
Neo-liberal fucks, we curse you allThose were really obvious
You all hate them, at least you should
Ironically there's plenty left
There are scum in a closer rangeBullshitting friends, we curse you all
Cheating motherfuckers, we curse you all
Greedy rip-offs, we curse you all
The hardcore elite, we curse you all
