

Retaliation (ft. 007, K.B. & Madd Dogg)

Geto Boys

Suicide, it's a suicide...[scarface]
Retaliation is a must
Leavin' opposition in the dust
In mob we trust, fuckin' with us gon' get your bust
It's a - suicide, it's a suicide
You will die, nigga, you will die
Just like your homeboy did
When we teed off on him
And since you want drama, we fend the weed off the corner
And when I ride
All these niggas better ride
So if you hoes got pride
Then bring your asses outside
And let me say your bad side
But don't you never let me see you sweat
I'm leaving motherfuckers silhouettes - wet
And you can take that as a treath
But I'ma make the promise
These nigga here is comin'
Sick enough to let to make a maggot vomit
With the intentions to retaliate
Illuminatin', then evacuate
Fuck the tear drops on the casket tops
Just open up with shots from the plastic glock
That leave your ass get got
It's all about gettin' even
Get them muthafuckas when you see 'em
Stop em from breathin[007]
Retaliation
Look at all the heat that you're facing
15 niggas agg in your living room waiting
Passin out shit, bags
Click clacks - toe tags
We came and we kicked that ass
Who run this? double-o-seven
Out of 17 and guaranteed to get eleven
I guess you think you're safe
Sorry that you did it
Hoe, it's too late

Bitch, you shouldn'ta did it
One by one niggas get they ass done
Pussy make me laugh, nigga, money make me come
Nigga set for life
All on this in pay-per-view
? callin? shots make you call yo' whole fuckin' crew
We gotcha[madd dogg]
I ain't playin with this one, pass the pistol
Warriors come out the play when we whistle
What's that sound? is that them - in the background?
I let the mac clown and shut this whole set down
Rap-a-lot mafia's murderous circle
We kill em done, go get your guns
None survive when I scream the die-die
It's the mister from the free time the dumb-dumb
Retaliation is a must
Who in the fuck gave you muthafuckas the nuts
To try to buck
Wanna bust? nigga what? !
It's dust to dust
Ashes to ashes, in the back is where the pistols pump
I lift em up, gives a fuck
I'm quick to bust
Hit 'em up, get 'em up
Once I send 'em up
Now ? ? ? get enough of my gangsta stuff
Retaliation is a muthafuckin' must
