

# And It's Supposed to Be Love

## Abbey Lincoln

Hey, look what you have done  
    Showing me the sun  
And now it's shining through  
    It's nice to be with you  
Hey, I like the things you say  
    And I like the way  
    You do the things you do  
    It's nice to be with you  
Each time that I give my heart  
    To someone new  
    They just turn it blue  
    But this time is my time  
And my time is all the time  
    I have to be with you  
    So, please, never go away  
    Say you're going to stay  
And make my dreams come true  
    It's nice to be with you  
Each time that I give my heart  
    To someone new  
    They just turn it blue  
    But this time is my time  
And my time is all the time  
    I have to be with you  
    So, please, never go away  
    Say you're going to stay  
And make my dreams come true  
    It's so nice to be with you
