

Walking On The Milky Way

Orchestral Manoeuvres in the Dark

When I was only seventeen
My head was full of brilliant dreams
My heart would call and I would gladly go
At twenty-one, the world was mine
And I was yours and you're divine
And nothing else would matter to us so
I don't believe in destiny
I don't believe in love
I don't believe that anything will ever be enough
Man, you should have seen us
On the way to Venus
Walking on the milky way
It was quite a day, hey, hey
Walking on the big stuff
Acting like we're real tough
Baby, we were on our way
So what do you say? Hey, hey
As time goes by, reality
Destroys your hope and dignity
There's nothing left but shadows on the wall
But just remember who you are
And where you've been you've come so far
And never ever let them see you fall
I don't believe in miracles
I don't believe in truth
I don't believe that anything can recreate your youth
Man, you should have seen us
On the way to Venus
Walking on the milky way
It was quite a day, hey, hey
Walking on the big stuff
Acting like we're real tough
Baby, we were on our way
So what do you say? Hey, hey
Man, you should have seen us
On the way to Venus
Walking on the milky way
It was quite a day, hey, hey
Walking on the big stuff
Acting like we're real tough
Baby we were on our way
So what do you say? Hey, hey
Man, it's you to seen us this way, we runaway with you
Man, it's you to seen us this way, we runaway with you
Man, it's you to seen us this way, we runaway with you
