

Air It All Out (Voltaxx & Mike Kelly radio edit)

Paulini

Alone inside this prison
These four walls closing in
I see a ray of light
I feel my body rise
It's like I'm hypnotized
But what my heart wants to say
Gotta take the first step
Cause boy there's nothing left
I'm feeling empty inside
It's all about give and take
But what we built was fake
This love is blowing away
And I (air it all, air it all)
I let it all (air it all out)
I gotta just breathe
(Air it all, air it all) air it all
(Air it all out) I let it all out
Sometimes you gotta learn to let go
But if your heart still wants to hold on
Go let the curtains from the window
(Air it all out) Just let it all out
(Air it all) air it all (air it all)
Air it all (air it all out)
My broken wings are mended
This frozen heart is melted
I finally opened my eyes
To see I'm getting stronger
Here I am standing taller
Someone you won't recognize
Gotta take the first step
Cause boy there's nothing left
I'm feeling empty inside
It's all about give and take
But what we built was fake
This love is blowing away
And I, (air it all) I'm stronger
(Air it all) I'm wiser, yeah
(Air it all out) I needed to breathe
(Air it all) air it all (air it all)

(Air it all out)
I'll air it all out
Sometimes you gotta learn to let go
But if your heart still wants to hold on
Go let the curtains from the window
(Air it all out) I'm airing you out
(Air it all) air it all (air it all)
Out (air it all out)
I'm gonna leave behind the sorrow
I ain't gonna cry no tears
I see a new tomorrow
I'm gonna leave behind the sorrow
I ain't gonna cry no tears
I see a new tomorrow
(Air it all, air it all)
(Air it all out) I'm airing it out
(Air it all, air it all)
(Air it all out) oh listen to me
Sometimes you gotta learn to let go
But if your heart still wants to hold on
Go let the curtains from the window
(Air it all out) I'm airing you out
(Air it all, air it all)
(Air it all out)
I'm gonna leave behind the sorrow
I ain't gonna cry no tears
I see a new tomorrow
