Hallowed

Helgritt

Sacred, standing full of pride
Spite in my brain causing you to fight
Enchained, you pray to get a slave
Rules with no sense, to dust you will decay
You left the empire of freedomHallowed be my name
Hallowed be my nameThe God of creation you beg for damnation
You think you can serve me with hateHallowed be my name
Hallowed be my nameThe God of creation you beg for damnation
You think you can serve me with hateHatred pushed into the war
Those who blaspheme just die by your sword
Sacred, hallowed be my name
For peace you destruct, a glorious crusade
