

# Into the Woods

## The Lower 48

Into the woods I went  
With my two best friends  
We would lay in the grass  
Over the river came  
clouds of gray we got lost in the day  
we got lost in the day  
knew every stick and stone  
made forts and worlds our own we got carried away  
through the brush we found  
something running round  
we went opposite ways we went opposite ways  
They found me with my shoes off  
Shoes off  
They found me with my shoes off  
Shoes off
