Falling Rock

Distorted Penguins

Don't turn the radio off, don't turn the radio down
Just lean back and groove to that sweet sweet sound
Seems like we gotta work hard, to remain on top
To maintain and restore the Falling Rock
Used to be easy just to sit and wonder why
It's getting harder all the time.Hey Hey, Ho Ho don't let the rock music go
Hey Hey, Woah no, just let the rock music flow.I'm not a rapper and I can't sing with soul
The only song I know is "Old Time Rock and Roll"
They say that you are judged by what you say
But no matter what say or do rock music is here to stay
Used to be easy just to sit and wonder why
It's getting harder all the time.
