

# Earrings

## Omni

I dropped them in the sink  
Didn't have much time to think  
Your earrings, your earrings I heard a myth about you  
One I wanted to, to be true  
Although it's my first time over  
I'll be the first to tell you  
You have such nice glassware  
Was I the first to stare  
At your earrings, chandeliers?  
I want to grab on and swing  
I dropped them in the sink  
Didn't have much time to think I heard a myth about you  
One I wanted to, to be true  
Although it's my first time over  
I'll be the first to tell you  
You have such nice glassware  
Was I the first to stare  
At your earrings, chandeliers?  
I want to grab on and swing  
Staying at your place  
I'll do my dishes, disrespect your wishes  
Staying at your place  
I'll do my dishes, disrespect you I dropped them in the sink  
Didn't have much time to think  
Your earrings, your earrings
