(This record is an unseen enemy of the human mind)
(You are going to relax)
(Use it regularly. Bring your mind to follow the suggestions to an unpleasant degree)
(You are going to relax)
(The mind needs nervous tension. And now we shall begin)
(Listen only to my voice)
(One word of caution)
(RU486)The pity turns complacent
The bitter comes in a rush
Nobody needs a hopeless romantic who never sleeps and drinks too much
The fear is unrepentant
That means theres nowhere to hide
So draw a breath, and kill my Judas- youll never know until you come insideYou are defeatist forsaken
A jewel in the crown of the sun
Never repeated or taken
I wouldnt change a fucking thing that youve doneGoing Down Alive
Going Down Alive
Assume Your Nemesis
Going Down Alive
Going Down Alive
RU486Another weak contender
Another pound of the nails
The future lies in perfect condition- you can do it if youre built to fail
I only know solutions
Ive never thought of the end
Someone else is closing the casket- another hungry mouth to defendYou are defeated forbidden
A name at the top of the list
Never related or stricken
I wouldnt change a fucking thing about thisGoing Down Alive
Going Down Alive
Assume Your Nemesis
Going Down Alive
Going Down Alive
