

Your Sweet Love

The Blue Dogs

Sometimes when the night builds walls around me
I find myself thinking about the time you found me
I was lost until you came around
With your sweet love In my dreams
Sometimes I think I feel you right behind me
And it seems it's just the little things that remind me Just a fool
With wandering eyes
But I was blind
Until i realized
Your sweet love Oh by and by
As my eye
Caught you walking by
Much to my surprise
Me with my disguise
You saw through it all
I never knew that something was wrong
Until your light came along Sometime though the night builds walls around me
I try reaching out from a window inside me Reach for you
Arms open wide
Promise me
Forever and besides
All I need
When I lay down at night
All I need
Is your sweet love
Your Sweet Love
