One Song Away

Cassadee Pope

Late at night
Can't go to sleep
It's just me and the radio
Every single melody
Is wrecking me
And I know I'm getting close
To losing all control
And picking up the phoneI'm one song away
From breaking down and calling you up
And each one that plays is telling me that I'm still in love
Every word in every line
Is singing how I feel tonight
It's all I can take
Now I'm one song away
I'm just one song awayI could turn it off or tune it out
But I'm too gone for saving now so
What's the use
No matter what I try to do, I'm back and forth
I toss and turn and think of you
The later that it gets
The more I wanna give inI'm one song away
From breaking down and calling you up
And each one that plays is telling me that I'm still in love
Every word in every line
Is singing how I feel tonight
It's all I can take
Now I'm one song away
I'm just one song awayI'm one song awayOh, and every word in every line
Is singing how I feel tonight
It's all I can take
Now I'm one song away
I'm just one song awayLate at night
Can't go to sleep
It's just me and the radio
