

Hypnotized

Lunic

In the calm after the storm
There's a light under the door
In a straight line it shines
Flickering it disappears
And the shadows hide my tears
This time I cry
Who are you?
You
Rainbows dance across your face
In this wild and empty space I hide
Hypnotized
And the warmth within your gaze
Takes me to a better place
Up high I fly
To you
You
Gone
Blue
You
Where are you?
You
