

Treason! Animals

Franz Ferdinand

Hey friends when will you get here?
Hey friends I need to hear voices
I dont care what you talk about
Hey friends I just need to hear voices
Could you bring the manual
Bring the repair manual
Something has really gone wrong hereIm the king of the animals
Im the king of the trees and animals
Self-crowned king of the trees and the animals
Im a king so give me a crown
I am an animal
Give me an animal crownHey friends when will you get here?
Hey friends this is my kingdom
This is a tree
This is an animal
Ask any one of them
And they darent deny it
Ask any one of them
And they darent deny it
No dont you dare deny it
This is my tree
This is my animal
But something has really gone wrongIm the king of the animalsI am an animal, oh give me an animal crown
Im in love with a narcissist - I know for the mirror told me
Im in love with my nemesis - I know for the mirror told me
Im in love with a narcissist - I know for the mirror told me
Im in love with my pharmacist - I know for the mirror told me
Im in love with a narcissist - I know for the mirror told me
Im in love with my analyst - I know for the mirror told me
Im in love with my nemesis - I know for the mirror told meHey friends when will you get here?
Hey friends I need to hear voices
I dont care what you talk about
Hey friends I just need to hear voices
Something has really gone wrongEnter the lyrics here...
