

I Can Only Disappoint U

Mansun

I traveled from Dublin
You said you'd change the world
You sing like Sinatra, always You've pulled 'em for miles now
Like Garbo in Berlin
You played 'em for zeros, just like always Tonight, some bitch is hassling me
And tonight, it feels so good feeling cheap I can only disappoint u
'Cause I always let you down
I can only disappoint u
'Cause I always let you down You turned a man cuckoo
Half animal, half grace
The chick was a teaser, always Tonight, their hips would swivel and turn
So we drove to the place where we first met I can only disappoint u
'Cause I always let you down
I can only disappoint u, always The queens, they all loved you
The tall, the short, the fair
(La, la, la, la, la, la, la, la, la)
The sailors, the psychos, always And here, I faltered, gun in my hand
And you, with piggies scrawled on your wall And tonight, her note said 'Better off dead'
And the earth has never moved for me since I can only disappoint u
'Cause I always let you down
I can only disappoint u, always I can only disappoint u
'Cause I always let you down
I can only disappoint u
'Cause I always let you down 'Cause I always let you down
'Cause I always let you down
'Cause I always let you down
'Cause I always let you down I always let you down
'Cause I always let you down
I always let you down
