

Piece by Piece

Feeder

Sitting on a corner street
Children playing at my feet
See the smiles on ice cream faces
Feel myself begin to sink
As the wind blows through my skin
Leaves me open to temptation 'Cause nothing ever lasts forever
We're like flowers in this vase together You and me, it's pulling me down
Tearing me down, piece by piece
And you can't see that it's like a disease
Killing me now, it's so hard to breathe Sucking back a cigarette
Thinking about new regrets
Trying to be someone you'd like to be
Passing faces on the road
Where the hell can we still go?
Leaves us open to temptation 'Cause nothing ever lasts forever
We're like flowers in this vase together You and me, it's pulling me down
Tearing me down, piece by piece
And you can't see that it's like a disease
Killing me now, it's so hard to breathe, it's so hard to breathe But it's worth fighting for, it's still worth fighting
for
It's worth fighting for
'Cause nothing ever lasts forever
We're like flowers in this vase together, here You and me, it's pulling me down
Tearing me down, piece by piece
And you can't see that it's like a disease
It's killing me now, it's so hard to breathe You and me, it's pulling me down
Tearing me down, piece by piece
And you can't see that it's like a disease
It's killing me now, it's so hard to breathe
