

First Joy

Lisa Stansfield

Ooh ooh
My show
Ooh woo
Ooh ooh
MmmMy first love, my first love
You gave me my first chance to be a woman
Forever I'll remember what you gave me
My first joyMy first love
You awoke my mind, my soul and my body
My first love
You opened my eyesOoh sweetheart
You took away my fear and inhibition
My first love
My sweetness and lightMy first love, my first love
You gave me my first chance to be a woman
Forever I'll remember what you gave me
My first joyThat first kiss, ooh
Standin' in the cold warmin' up the winter
It was bliss, ooh
To be in your armsWoo ooh, it seemed we'd be that way forever
Together in love
And my first love
You'll stay forever in my heartMy first love, my first love
You gave me my first chance to be a woman
Forever I'll remember what you gave me
My first joyMy love, my joyMy first love, my first love
You gave me my first chance to be a woman
Forever I'll remember what you gave me
My first joyMy first love, my first love
You gave me my first chance to be a woman
Forever I'll remember what you gave me
My first joyOhh, my first love
You gave me my first chance
You made me feel a woman
My first joy
Ooh, ooh
Ooh baby
Our love is so mad for you
Ooh mad about after you

Ooh babe
Ooh ooh, hey
Yeah yea
