

# Fake

## Busted

I can't believe what my girlfriend did today  
She screamed so loudly then she turned away  
Why did she cut me down to size  
She left me wondering, "Can I do it right?" What am I gonna do now the games up  
Can't get her off that's kinda rough  
She better not tell my mates today So baby tell me now do I need to measure  
'Cause I'm feeling under pressure  
I'm just hoping that the fear will go away  
Don't wanna be a fake I woke up in a sweat felt a disgrace  
She looked so beautiful love on her face  
Feeling stupid all on my own  
I put it down to experience 'cause now I've grown What am I gonna do now the games up  
Can't get her off that's kinda rough  
She better not tell my mates today So baby tell me now do I need to measure  
'Cause I'm feeling under pressure  
I'm just hoping that the fear will go away  
Don't wanna be a fake Don't wanna be a fake it's quite uncanny  
Cause my favorite film is when Harry met Sally  
But now we're finished there's no way  
That we're ever gonna be okay Don't wanna be a fake, how low can I go  
You might find me reading Cosmo  
But when I'm finished you know that  
You're gonna wanna be with me  
Gonna wanna be with me  
Gonna wanna be with me Gotta a girl on my sofa  
You're getting undressed  
I gotta know can I deliver  
'Cause I'm feeling stressed What am I gonna do is my game up  
I've got the goods is that enough  
There's almost nothing left to say So wish me luck not gonna run  
The final countdown has begun  
Not gonna see or hear them  
Laughing in my face What am I gonna do now the games up  
Can't get her off that's kinda rough  
She better not tell my mates today So baby tell me now do I need to measure  
'Cause I'm feeling under pressure  
I'm just hoping that the fear will go away  
Don't wanna be a fake
