

Tears

Such a long time ago

Now I know

You've woke up to find

You were wrong

There ain't no doubt

Put me out

Nearly made me blind

You sent me a letter, brought tears to my eyes

Tell me you've changed, after all this time

Like a stone rolling down the mountainside

It's over, you can't turn the tide, and it's...

Chorus

Tears falling about love, falling without love

Tears falling about love, falling without love

I was glad

To be with you

Near to you

My heart can't deny

I was sad

To leave your side

Stripped of pride

When you said goodbye

For every new road there must be a friend

For every broken heart there must be a mend

And the rain only lasted so long

It's over, the thing we had is gone, and it's...

Chorus - instrumental

To tell me you've changed brought tears to my eyes

Say you've rearranged after all this time

Like a stone rolling down the mountainside

It's over, you can't turn the tide, and it's...

Chorus-repeat and fade
