

# Talk to Me Lonesome Heart

**George Jones**

Written by James O'Gwynn Talk to me, oh lonesome heart

    Help me through this lonely night

    Lie to me and tell me ev'rything's alright

        Talk to me, oh lonesome heart

        Help me through my darkest gloom

    Help me bring her mem'ry to this lonely room (Chorus)

        Talk to me and let me cry the whole night through

        You have lost, yes, but I've lost as much as you

            So talk to me, oh lonesome heart

            Help me through this lonely night

    Lie to me and tell me ev'rything's alright Talk to me, oh lonesome heart

        Talk about the love I miss

        Talk to me about the lips I used to kiss

            Tell me how she used to smile

            Just before she said goodbye

        Talk to me, oh lonesome heart, while I cry
