

Nose Bleeding

Walter TV

get it out
now get it in
i forgot what i was saying
come on man
leave me alone
cause i just want to get this out of my head
got a nose bleedwhats this about
get it off your chest
let it out
im done walking around the bush
watch this can im about to crush
keep your head clear of shit
this advice i shouldnt be the one to give it
but im done fooling around
put your hand in my pocket on the dollar i just foundwhat you want
what i need
oh my god
set me freewhat you want
what i need
i dont know
anything
