

Super Powers

Adam Ladell

Tables have turned, stakes are getting higher
But i am determined, I am on fire
Jumping from building to building
I'm gonna find you
Mile after mile, I'm getting closer
Ain't got no lighting speed or X-Ray vision
Don't got a spell to get you out of prison
But i know that you are gonna wanna be next to me baby (Baby, Baby)
I'm gonna run towards you
To save the day, gonna show you my superpowers
You're gonna watch in awe
As i fly and take you up into the night sky
Come along just follow me
I'll show you something magical
So tag along, Don't lag behind
You're gonna wanna be right by my side
To see my superpowers
...
This fire inside
burns bright
as you reject it's light
But i know that you are gonna wanna be next to me baby (Baby, Baby)
I'm gonna run towards you
To save the day, gonna show you my superpowers
You're gonna watch in awe
As i fly and take you up into the night sky
Come along just follow me
I'll show you something magical
So tag along, Don't lag behind
You're gonna wanna be right by my side
To see my super power
I know im not everything
Can't buy you a diamond ring
But i'll always be right by your side
Protect you from the bad guys
With lasers from my eyes
And make sure you're alright
I'm gonna run towards you
To save the day, gonna show you my superpowers

You're gonna watch in awe
As i fly and take you up into the night sky
Come along just follow me
I'll show you something magical
So tag along, don't lag behind
You're gonna wanna be right by my side
To see my super powers
I'm gonna run towards you
To save the day, gonna show you my superpowers
You're gonna watch in awe
As i fly and take you up into the night sky
