

# Fine By Me

## Nuno Bettencourt

The rocketship crashlanded Stranded on the moon  
    Fine with me, as long as I'm with you  
    Caught in an avalanche Buried by the snow  
Fine by me, I'll melt away with youMost people would rather skim the lake for night time insects  
    Most will never find what I have foundAccording to them I've lost my freedom  
        Love 'em and leave 'em is not my freedom  
        Maybe it's true I'm a bit addicted  
But being with free is simply loving youHome lazin' round the tube With nothin' else to do  
    Fine with me, I'll do nothing with you  
    Can't sleep the mind is itchin' Bed bugs on the brain  
Don't despair, I'll toss and turn with youOne mans superstition is another man's religion  
    Most will never find what I have foundAccording to them I've lost my freedom  
        Love 'em and leave 'em is not my freedom  
        Maybe it's true I'm a bit addicted  
But being with free is simply loving youThere's nothin' wrong with space Need time to be alone  
    Fine with me, As long as I'm with you  
    Chained up in a boiling kitchen Can't escape the heat  
Come with me, I'll run away with youAccording to them I've lost my freedom  
        Love 'em and leave 'em is not my freedom  
        Maybe it's true I'm a bit addicted  
But being with free is simply loving youYeah life's a rollercoaster Off the beaten track  
    I'm not scared, I'm riding next to you  
    Time flies and then your old Years go cruising by  
        Fine with me, as long as I'm with you
