Guttermouth

Advisory - the following lyrics contain explicit language:

American flag waving high
Protecting it I want to die
I don't know about you man
But I'd rather die
Than live under communist rules
Let 'em go ahead and tryAmerican flag, red, white and blue
Our government doesn't tell us what to do
If you don't like living here
Go somewhere else and stay a year
You'll be glad for what you've got
Or go to the mid-east and get shotAmerican flag, makes me proud
Fucking commies
I'll yell it loud
Try and take away the freedom that I have
You'll be lying dead
With a broken gun in hand.
