Testify

Switches

I really like to see ya, wouldn't wanna be ya
Your picture in my wallet was there before I bought it
Monday slipped inside my world
Stay close to me, sporadically
I was selling my thoughts to the night

I don't care what you say 'cus I won't testify my love
I don't care what you do 'cus I won't testify my love

Even though I know ya, I wouldn't wanna show ya
Take away my heart again, leave me with a cold brain
Tuesday slipped inside my world
Depression on me, consecutively
I was selling my thoughts to the night

I don't care what you say 'cus I won't testify my love
I don't care what you do 'cus I won't testify my love

Yeah, 'cus I don't wanna testify, testify
So I'm not gonna testify, testify
I'm too high to testify, testify, testify-hi
