

# 18 Years

## Daughtry

Sit down with an old friend  
Like time it never stopped  
From the cradle to the coffin  
We drink until we drop  
Yeah, we grew up on the same street  
Small town under the hill, yeah  
But dreams get lost and buried down  
Deep inside the soil there, yeah  
All day all night  
Keep pressing rewind  
All day all night  
I remember  
All day all night  
Keep pressing rewind  
All day all night  
I remember  
We were young, we were wild  
We were halfway free  
We were kids on the run  
On a dead-end street  
Looking back in the rear view mirror  
You know the view used to be much clearer  
But we'll laugh and we'll cry  
Till there's no more tears  
Yea tonight can we just hold on to those 18 years  
18 years  
Some ran down the highway  
To chase away their ghosts  
Some frozen in the same place  
This time inside their bones  
Remember throwing TVs off the overpass onto the tracks, yeah  
But the trains roll on through the small towns and never looked back, and yeah  
All day all night  
Keep pressing rewind  
All day all night  
I remember  
All day all night  
Keep pressing rewind  
All day, tell me do you remember  
We were young, we were wild  
We were halfway free  
We were kids on the run  
On a dead-end street  
Looking back in the rear view mirror

You know the view used to be much clearer  
But we'll laugh and we'll cry  
Till there's no more tears

Yea tonight can we just hold on to those 18 years  
18 years yeahCan we just hold on?  
Can we just hold on?  
Can we just hold on (To those 18 years)  
Can we just hold on?  
Can we just hold on?  
Can we just hold on?

18 years, 18 years, yeahWe were young, we were wild  
We were halfway free  
We were kids on the run  
On a dead-end street  
We were building a bridge  
Out of broken dreams  
We were crashing like cars

When we were 18We were young, we were wild  
We were halfway free  
We were kids on the run  
On a dead-end street  
Looking back in the rear view mirror

You know the view used to be much clearer  
But we'll laugh and we'll cry  
Till there's no more tears

Yea tonight, can we just hold on to those 18 yearsCan we just hold on?  
Can we just hold on?  
Can we just hold on (Oh yeah, those 18 years)  
Can we just hold on?  
Can we just hold on?  
Can we just hold on?  
Oh those 18 years
