

Big Brother

Turbo Fruits

Brother, you left me, dad, and mother,
We're mourning with each other,
Can you hear us crying?
Dying, in the living room,
I'm calling out for you,
I miss my big brother.
I don't want to live this life without you,
I only see you when I dream about you.
Brother I sure do miss you in
so many god damn ways,
I wish you still could bruise
my arms these days.
The kicks you used to give me
Don't compare to this new pain,
I need you here to take my pain away.
Brother, it's hard to talk about you,
But I never leave without you,
I know you're watching out for me.
Never got to say goodbye,
So many questions why,
Answer myself with a sigh.
I don't want to live this life without you,
I only see you when I dream about you.
Brother I sure do miss you in
so many god damn ways.
I wish you still could bruise
my arms these days.
The kicks you used to give me
Don't compare to this new pain.
I wish I could have you for one more day.
Take my pain away,
Take my pain away,
Take my pain away,
Take my pain,
Take my pain away,
Take my pain away.
I wish I could have you for one more day.
Take my pain away,
Take my pain away,

Take my pain away,

Take my pain,

Take my pain away,

Take my pain away.

I wish I could have you for one more day.
