

Soul Driver

Ocean Colour Scene

Straighten your collar and smile 'cause you've never been lazy
'Cause you in a style, call the shots every day
Soul driver, don't hurry
It's my timing, it's not your worry
I'm taking my time, I'm laying my roots
Since I've been so far away
You're such a practical man, you work so hard for your living
You make me understand, that it's all in the giving
Soul driver, don't hurry
It's my timing, it's not your worry
I'm taking my time, I'm laying my roots
Since I've been so far away
Soul driver, don't hurry
It's my timing, it's not your worry
I'm taking my time, I'm laying my roots
Since I've been so far away
Soul driver, don't hurry
It's my timing, it's not your worry
I'm taking my time, I'm laying my roots
Since I've been so far away
Soul driver, don't hurry
It's my timing, it's not your worry
I'm taking my time, I'm laying my roots
Since I've been so far away
[Incomprehensible]
