Promises

Kylie Minogue

Ahh
Remember how it used to be
Remember how you promised me
That life would always be good
Oh, you forget the fact you lied to me
You locked my heart and threw the key
I'm so misunderstood, ahh
What to say when all the words have gone
Promises, promises
What to do when all our thoughts have flown
Promises, promises
Remember how I gave my heart
And all at once we fell apart
Was I supposed to forgive you?, ahh
You forgot the fact you said to me
That we were for eternity
You're so easy to see through, ahh
What to say when all the words have gone
Promises, promises
(Promises)
What to do when all our thoughts have flown
Promises, promises
(Promises)
Remember that I'm over you
And know that I will make it through
Hope you never forget it
The promises you made to me
Were really lies and fantasy
Hope you come to regret it
What to say when all the tears have dried
(Tears have dried)
Promises, promises
(Promises)
What to think when all our love has died
(Love has died)
Promises, promises
(Promises)
The promises we used to keep have gone
And with them all the words

That kept us both from seeing what was wrong
(Was wrong)
The rest is silence
What to say when all the words have gone
(Words have gone)
Promises, promises
(Promises)
What to do when all our thoughts have flown
(Thoughts have flown)
Promises, promises
(Promises)
What to say when all the tears have dried
(Tears have dried)
Promises, promises
(Promises)
What to think when all our love has died
(Love has died)
Promises, promises
