

# Don't Walk Away

911

Writers: McLaughlin/James

Can't believe we're standing here

Saying that we're leaving

While holding back the tears

I remember everything we've shared

Through all the years

Why does it have to end this way

Is this the bitter pill

That we have to take

And now we've come this far

Is this the price we pay

Can we win it back again

Chorus:

So don't walk away

We can save our love

If we just keep the faith

Let's turn the tide, before it's too late

Don't let it go, don't walk away

Sometimes we don't see eye to eye

And in the past, we may have danced a little out of time

And after all the different roads we've walked together

Let's make it right

Let's start tonight

Chorus

All it takes is understanding

The answer's right there in our hearts

We can reach a new horizon

If we keep the hope alive

And all the things will turn out right

Chorus x2
