If I Leave

A Day to Remember

Let's goIn the beginning I was up front
Nothing to think about, you'd always hear me out
We made a pact to never give up
When everything would change, we'd always stay the sameSomething went wrong along the way
You'd come around and there's nothing left to say
It's like we're strangers anyway
What more could you ask of me?It's been a long time coming
But every ones gonna hear me nowIf I leave, bet you'll wish I'd stayed
Make you regret all the things you said to me
You know that time can't help us now
If I leave this, if I leave this wayI've always been a man of action
Never let anything keep a hold of me
Can always tell when somethings missing
Like I knew everything except for you and meI can't make you want to stay
I'll take a shot but it's broken anyway
I still gave it everything
I guess I never catch my breakIt's been a long time coming
But everyone's gonna hear me nowIf I leave, bet you'll wish I'd stayed
Make you regret all the things you said to me
You know that time can't help us now
You know that time can't help us nowIf I leave I should move away
And try to right all the wrongs we've ever made
Well, let your problems weight me down
If I leave this, if I leave this wayNever thought you'd be the last one standing
Never thought that we would come this far
You'll always be there looking over my shoulder
Come to terms with exactly what we areNever thought you'd be the last one standing
Never thought that we would come this far
You'll always be there looking over my shoulder
Come to terms with exactly what we areIf I leave, bet you'll wish I'd stayed
Make you regret all the things you said to me
You know that time can't help us now
You know that time can't help us nowIf I leave I should move away
And try to right all the wrongs we've ever made
Well, let your problems weight me down
If I leave this, if I leave this wayNever thought you'd be the last one standing
Never thought that we would come this far
You'll always be there looking over my shoulder
If I leave this, if I leave this way
