

It Will Sail

Sarah Harmer

I think it'll float
I think it'll sail
We may take on waves
Hit a galeBut considering this love
 Most everything
 Says I think it'll fly
And I think it'll singThere's a cat on the bed
 And a leak in the roof
 And I'm pretty sure now
That we don't need more proofWe'll patch it with credit
 And we'll pay it on time
Take the helm from me sailor
 Take us out of here tonight
