Thump Thump Thump

Nat & Alex Wolff

You're obviously the star of the class
You make all the good times last
You make all the bad hours pass
And girl you make me laugh

Your voice is raspy yeah-oh
You're always happy yeah-oh
And when the girl finally sees
The guy is on his knees
And he's begging please

Thump thump thump goes my heart again
Thump thump thump goes my heart again
No she's not just a normal friend
'Cause thump thump thump goes my heart again
Goes my heart again

When the skies are grey
You make them blue
And I know that other guy likes you too
But I promise that'll be through
Because I was meant to be with you

Your voice is raspy yeah-oh
You're always happy yeah-oh
And when the girl finally sees
The guy is on his knees
And he's begging please

Thump thump thump goes my heart again
Thump thump thump goes my heart again
No she's not just a normal friend
'Cause thump thump thump goes my heart again
Goes my heart again

Head over heels
No I can't express the way I feel
Head over heels
No I can't express the way I feel

Thump thump thump goes my heart again (Repeat)
