Oblivion

Project 86

A double minded one
Gazing into two reflections
Who cannot recognize
The vessel or the messenger
Yeah
Obedience gone and somewhere left in the distance
New wilderness
Outstretched hand, broken wrist
Just a little taste of everything you would miss
Could you turn your back on this?
Fight
(Fight)
For our tomorrow
Fall
(To stand)
Surrender, to follow
Fight
(Fight)
For our tomorrow
Fall
(To stand)
Surrender, to follow
Whoa, it's all
All we'll ever have
Whoa, it's all
All we'll ever need
From somewhere far, far away
(I will avenge, I will repay)
A distant voice from some familiar place

(Drive it home in me, pull it out from me)
"Let go the anchor
Let got the dead weight
(I will repay, I will avenge)
And I'll change what's in remiss"
Fight
(Fight)
For our tomorrow
Fall

(To stand)
Surrender, to follow
Fight
(Fight)
For our tomorrow
Fall
(To stand)
Surrender, to follow
Whoa, it's all
All we'll ever have
Whoa, it's all
All we'll ever need
Will I find home in
This beautiful oblivion?
No meaning, no solace
No comfort, no justice
These thoughts I've held in failure
My paper champion, false savior
"You think the answer lies within
When your heart betrays you?"
