

Wake Me Up

77 Bombay Street

gonna save the world today / aliens take me away /the whole world seems to be a disaster / i run run run but
i can't get faster

i can fly when i'm spreading my arms and / i never die and i never get harmed and / i'm gonna save the princess
and the queen / and all i wanna do forever dream

wake me up in the morning / until then my life isn't boring / and if you don't mind then let me stay / i'd rather
keep sleeping all day

i'm gonna make it to the mountain top / i'm gonna do it like james bond i'm a lover / riding on the back of a blue
dragon breed / diving in the ocean where the mermaids meet

i'm flying on like this song around the world / while i am staying right here / in your bed let the fever fairy
pop my head / and if you can catch up with me we're gonna save the world / if you just lie in my arms / no one
stops us from flying up to the stars
