I Guess It's Christmas Time

*NSYNC

Feel the magic in the air
Christmas is all around
Somethin' about this special time of yearA blanket of snow falls down from the sky
Voices of angels
Open our hearts so we can open our armsAnd we'll all join hands to celebrate the goodness
That shines inside of everyone
It must have been a part of some great design
Guess it's Christmas timeSeein' the face of the little boys and girls
Singing their first 'Noel'
A sweet refrain heard all around the worldA song of forgiveness, comforting peace
A time to remember, what life really means
The important thingsAnd we'll all join hands to celebrate the goodness
That shines inside of everyone
It must have been a part of some great design
Guess it's Christmas time, guess it's Christmas timeOpen our hearts so we can open our armsAnd we'll all join hands to celebrate the goodness
That shines inside of everyone
It must have been a part of some great design
Guess it's Christmas time
It must have been a part of some great design
Guess it's Christmas timeMerry Christmas
