Scorpios

Adam and the Ants

There's a gang in every town
I say the rules be turned around
Listen here, from one who knows
Be fearless just like the ScorpioPretty, look young be fearless
Like the Scorpio
Pretty look young, be fearless
Like the Scorpio, the Scorpio, the ScorpioBlack's the color watch the claws
With nails as sharp as Diana Dors
Watching us is stopping you
From cruising Ugly AvenuePretty, look young, be fearless
Like the Scorpio
Pretty, have fun, don't listen
When you're told there's none
The Scorpio, the ScorpioAnd if by chance you cling to hate
Just rest assured, it's your mistakeHold up your head, you know I'm right
The street's the place, tonight's
The night, the night, the nightLook pretty, look young
Be fearless like the Scorpio
Pretty, have fun, don't listen
When you're told there's noneLook pretty, look young
Be fearless like the Scorpio
Pretty, have fun, don't listen
When you're told there's noneLook pretty, look young
Be fearless like the Scorpio
Pretty, have fun, don't listen
When you're told there's none
