

# Whiskey Headed Woman

Randall Bramblett

I can't do nothin with you  
You won't do right  
Slip out every evening  
Stay gone all night You're a whiskey headed woman  
I believe you want to stay drunk all the time  
Whiskey headed woman  
I'm about to lose my feeble mind I can't use it  
I can't use it  
(Don't give it to me) I used to hear the birds in the morning  
Now I got the earplugs in  
I feel the rays of sunlight  
Crawlin underneath my skin You're a whiskey headed woman  
Got me broke into a sweat  
You're a whiskey headed woman  
I'm gon' catch up with you yet I can't use it  
Shirt around my head  
I can't use it  
Shoulda stayed in bed Whiskey headed woman  
I believe you want to stay high all the time
